I am a motivated and enthusiastic mechatronics engineer with basic programming skills, practical experience in robot programming, and proficiency in CAD and engineering software. I am able to work effectively both independently and in a team, and I have a precise and problem-solving approach. In my free time, I enjoy building small electronic systems, and I am not afraid of complex problems.

Studies

- Budapest University of Technology and Economics - Faculty of Mechanical Engineering | 2022 – 2025
MSc in Mechatronics Engineering
- Óbuda University – Bánki Donát Faculty of Mechanical Engineering and Safety Engineering | 2018 – 2022
BSc in Mechatronics Engineering

Experience

- Zollner Kft. – Intern, Vác (2022, 7 months)
Responsibilities: preparing assembly instructions, providing documentation support, interpreting technical drawings and process descriptions

Language skills

- Basic Italian
- Intermediate English (B2)

Skills

- Programming languages: C#, C++, Python, LabVIEW (basic level)
- ABB RobotStudio (basic level experience)
- Autodesk Inventor, Fusion360 - 3D design skills
- PLC programming skills
- Matlab (basic level skills)
- Knowledge of 3D printing
- I acquired knowledge of robot programming on Yaskawa robots as part of an elective course
- In my free time, I learned how to solder and used my studies to build small electronic devices
- Knowledge of microcontroller programming (Arduino, ESP32)
- Category B driver's license
